Dear Associates,

My appreciation for all the time and effort each of you put into making the holidays just a little bit easier for the patients and families we care for and about. As I mentioned at the Associates Christmas Party, the Arbor House provides a chance for patients and families to escape from all the tension and fears connected to being across the street at the Medical Center. The donations you made help them to regain a sense of normalcy at a time when their world may feel totally out of control.

As I went through all the bags and boxes of goodies, I was overwhelmed by your generosity. Right away I put soups into the cupboards knowing that sometimes the only thing that appeals to a queasy stomach is a nice cup of soup. Crackers and hot chocolate followed. The flour and sugar have already been given to our wonderful volunteer who bakes cookies at least once a week – there was a smile on her face and a gleam in her eye as she loaded the supplies in her car and I know that by week’s end more homemade cookies will be delivered to the House.

After you left I let people staying there know about the left-over food in the refrigerator from the party and when I checked this morning most of it was gone so I know that they enjoyed the delicious food prepared by our Food Service Department as much as you did.

Thank you so very much. May the New Year bring peace and joy for each of you and your families.
