THE BEST WAY WE CAN HELP YOU IS TO KNOW YOU. THAT'S WHY WE START WITH A CONSULTATION/EVALUATION MEETING. FROM THERE, WE CAN DEVELOP A TREATMENT PLAN THAT'S RIGHT FOR YOU. YOUR TESTING, TREATMENT, AND MONITORING WILL BE GUIDED BY YOUR OWN CENTRAL MAINE FERTILITY CENTER MEDICAL TEAM THAT WILL STAY WITH YOU THROUGHOUT YOUR CARE.

### *Services available at CMFC include:*

- Ovulation stimulation cycles
- Ultrasound studies
- Specimen collections
- Blood hormone evaluations
- Intrauterine inseminations
- IVF cycle monitoring
- Reproductive surgeries such as laparoscopy and hysteroscopy

If in vitro fertilization is for you, the only services that must be provided at Boston IVF are egg retrieval and embryo transfer. In addition to these fertility services, you can take advantage of the complementary care offered at the Boston IVF center in Waltham, Mass. Complementary care includes counseling, nutrition consultation, therapeutic massage, mind/body programs, and acupuncture pre- and post-embryo transfer.
